

Benefits of Biodiversity

Discover what biodiversity exists in your neighbourhood!

1

Get outside! Go for a walk, or explore your backyard or nearby green space.

2

Make a list of all the plants and animals you can spot.

3

Think about how these plants and animals help each other and help humans. Make a mindmap, brainstorming cloud, or list.

4

Cross off half of the plants and animals on your list to show a reduction in biodiversity.

5

Make a second mindmap, brainstorm cloud or list of uses of the remaining plants and animals.

2

Make a list of all the plants and animals you can spot during your walk.

3

Think about how these plants and animals help each other and help humans. Make a mindmap, brainstorming cloud, or list.

What would it look like if half of the biodiversity was gone? Find out by crossing half of your species off of your list or map.
