

## **Bagida'waad Alliance Discussion Questions**

1. What are the objectives of the Bagida'waad Alliance? Who is on the Bagida'waad Alliance Board of Directors?
2. How does the Bagida'waad Alliance rely on Indigenous land-based knowledge? Who provides this knowledge to the Alliance?
3. What does some of the Indigenous land-based knowledge shared in the autoethnography tell us about how climate change is impacting local white fish populations on the Bruce Peninsula? What about other environmental factors impacting white fish?
4. What are some ways the disappearance of local white fish is impacting Indigenous groups in this area?
5. How can observational Indigenous land-based knowledge compliment Western Scientific knowledge?
