

Size of the Track

Draw the outline of your own footprint on this paper.
When you find a track, try to measure the size of the
track using your own track as a guide.

Shape of the Track

Circle the approximate shape of the track, regardless of size.

Pattern of the Track

Circle the approximate pattern of the track, regardless of size.

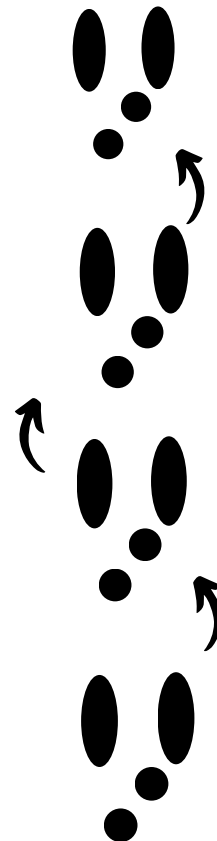

Diagonal Walker

Front and hind feet are similar in shape. The left and right front and hind feet are in straight lines.

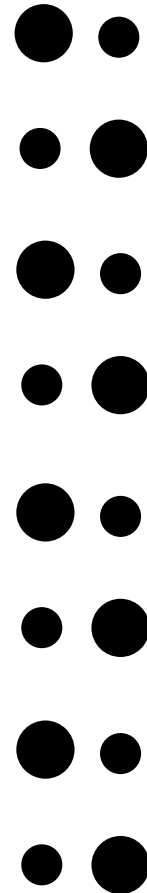

Bounder

Front and hind feet are different sizes, and appear in repeated jumps.

Hopper

Front and hind feet are different sizes, and appear in staggered jumps.

Pacer

Front and hind feet are different sizes, and appear beside each other.
